THE BEST TREATMENT FOR CHOLERA—When promptly and properly treated a recovery is almost certain. This was fully demonstrated during the prevalence of Cholera in New York in 1866. Go to bed as soon as the first symptoms appear, remain as quiet as possible, and take Chamberlain's Colic, Cholera and Diarrhoea Remedy in double doses until the pain ceases, and then after each operation of the bowels more than natural. Send for a physician, but take this remedy in this way until he arrives. The remedy should be kept at hand ready for instant use. It should be taken within five minutes after the first symptoms appear. Chamberlain's Colic, Cholera and Diarrhoea Remedy is the most successful medicine that has yet been produced, not only for the milder forms of bowel complaint, but for the most virulent forms of Asiatic Cholera. ON BOARD THE RETRIEVER

CHOLERA SAID TO HAVE BEEN TAKEN FROM HERE.

The Man Was Sick When the Vessel First Came Here From Port Townsend.

A Port Townsend dispatch to the San Francisco papers of September 20 says: "American barkentine Retriever, twenty-five days from Honolulu, arrived tonight with the yellow flag flying. The vessel was immediately taken in charge by United States Quarantine Officer Stimpson, who will start at daylight with her for Diamond Point station, where she will be fumigated five days.

"It is reported that there is only one man sick, but as the officers are detained on the vessel the nature of the case has not been ascertained. However, as the Retriever has come straight from Honolulu it is regarded as almost certain that there is cholera aboard. Every precaution will be taken to keep out the dread disease."

With reference to the above the BULLETIN learns that when the Retriever arrived here in August last one of her crew was sick with chronic dysentery. He was attended by Dr. McKibbin during his stay in the harbor and returned on the vessel to Port Townsend. It is said that the captain of the Retriever was the worst scared man on the waterfront about cholera and was very particular with his men and vessel. Lowers & Cooke, to whom the vessel was consigned here, have nothing from the Coast concerning the vessel. It is maritime law for a vessel entering a new port from an infected one to fly a yellow flag, and this fact in connection with the sick man on board may have given rise to the cholera alarm.

From another source, however, the cholera case is corroborated. A gentleman of this city received a letter from his father at Port Townsend saying there were four cases of cholera on board the Retriever and the disease was designated as the "black" cholera, whatever that may be. If that be true it is passing strange that none of the San Francisco papers have anything later about it than the above dispatch.

The latest Vancouver paper by the Miowera are dated the 19th, one day before the Retriever arrived.

Did You Ever Think

That you cannot be well unless you have pure, rich blood? If you are weak, tired, languid and all run down, it is because your blood is impoverished and lacks vitality. These troubles may be overcome by Hood's Sarsaparilla because Hood's Sarsaparilla makes pure, rich blood. It is, in truth, the great blood purifier.

Hood's Pills cure liver ills, sick headache, constipation, biliousness, jaundice, sick headache, indigestion. 114-4f

FITS CURED

(From U. S. Journal of Medicine.) Prof. W. H. Peck, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living physician. His success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on the disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P. O. and Express address. We advise anyone wishing a cure to address, Prof. W. H. PECK, P. O. 4 Cedar St., New York.

Ordway & Porter

OUR aim since the organization of the firm has been to supply the people of Honolulu with first class furniture at a medium price. The growth of the business is the best evidence we can offer as a verification that never diverged from our motto.

In this advertisement we call your attention in a general way to the various articles of furniture we carry by submitting a few designs of pieces that should be in every home.

CHINA CLOSETS are as much in demand as bedsteads, they are no longer in the list of luxuries; the craze for collecting odd bits of China or bric a brac and the desire to keep them in a convenient place for showing to one's friends has made the China closet indispensable. We have them in various styles single or double, for wall or corner. Those in antique oak are fashionable because they are serviceable, the durability of the finish on oak has the effect of making them always appear new.

THE utter impossibility of an attempt to have a dining room well furnished without a sideboard has been demonstrated in half the homes in Honolulu. There is no necessity for any one going without one when they have a stock like ours to draw from. The one shown is of quartered Oak satin polish finish and has French bevel plate glass. In the higher priced sideboards ample space is allowed for silverware. Our stock of plain oak sideboards has never been equalled in Honolulu.

ROBINSON BLOCK

ONE bureau is scarcely adequate to hold all the shirts, underwear, etc., of a gentleman and wife; two bureaus in a room make it lap-sided particularly when they are not the same pattern. A CHIFFONIER, no matter what the design or color, adds finish to the room just as a piano does to a parlor.

It may sound egotistical, but we believe we have the largest stock of these articles to select from outside San Francisco.

Oak is the style oftenest selected for the same reason as given regarding China closets, but with our stock there is no limit as to style of wood. Oak, Birch or Ash, it is all the same, we can supply them in twenty odd styles. We have them with or without toilets; plain top and other with German or French bevel mirrors, and either polished or varnished surface.

The half dozen drawers in a Chiffonier makes it possible to separate the clothing and keep them always in place. If you have ever had one you know the value; if you have not get one while the price is below bed-rock.

OUR hair mattresses are made up in the best quality of tickings, bound with the best bed lac, have borders 4 inches deep, stitched twice around.

Mattresses made of moss have the same care on our part as those of hair. The difference in price is accounted for by the difference between moss and hair. This work has the attention of experienced upholsterers, and no better mattresses can be bought anywhere than we make. The prices are governed by the size of the beds and number of pounds of hair used.

YOU probably know what it is to scatter sewing, books, papers and sundries on shelves, bureaus and wherever is most convenient. This has been the case with many people because they have not been able to secure tables at anything like reasonable prices. We sell you tables with tops 20x20 inches, elegantly finished and durable, for \$2.00. You've paid double the money for something of half the value and then stopped buying because you considered yourself sold. We do not confine ourselves to this cheap line but have them in every conceivable price. Heavy quartered oak with handsomely carved legs and brass mountings. Dining tables in endless variety in either oak or walnut.

We also carry a large stock of chairs suitable for any room in the house. As with the tables the price depends largely upon the quality; we have no old stocks, so that age of the goods makes no difference in the price. We do not keep furniture long enough for them to get old. The only goods of that character seen in our store is what people have bought elsewhere and brought to us to have made over. We have an upholstery department in which work of the finest character is done. Perhaps you've noticed elegantly upholstered Couches in the show rooms and thought they were made abroad! They are the work of our men and we feel a just pride in turning out work that compares favorably with that made in the largest factories in the United States.
